COMM 1026	Dissertation

I Passing minimum in a paper :  
Combined Grade C.

II A single Credit represents a lecture of One Hour per week or a Laboratory/Work-Shop period of 3 hours per week.

III Grade and Grade Point :

MARKS	GRADE	GRADE POINTS
70% and above	O Outstanding	5
60% to 69%	A Good	4
50% to 59%	B Fair	3
40% to 49%	C Satisfactory	2
below 40%	D Deficient (Fallure)	1

IV AVERAGE GRADE POINT OF THE INDIVIDUAL.

The Grade Point Average is computed as follows:

1. In a set of courses the credit value of each course is multiplied by the numeric points of the letter grade A, B and so on to give grade points.
2. Grade points of all the courses in the set are totalled to give 'total grade points'.
3. To obtain Grade Point Average divide the total grade points by the total of credit values of courses completed.
4. The result of the individual subject is based on the average of Internal Evaluation and External Examination as mentioned in column 'Combined Grade obtained'.

The span of difference in the marks within the grades, Internal and external, ranging from a minimum of 10 marks to a maximum of 26 marks explains the variation, if any, between the individual grades and the Combined Grades.
